International Soil Scientist Awards

CALL FOR PROFILE – SOS Awards

About Awards: ScienceFather takes the privilege to awarding the Industriest, Academicians, Researchers, Doctors, Scientist, and Regulators from SOS and Agricultural fields across the globe to its International Events. The SOS International Soil Scientist Awards is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: The International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features and Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Young Scientist Award | Best Researcher Award | Outstanding Scientist Award | Lifetime achievement Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award. Institute/ Organization Awards: Excellence in Innovation | Excellence in Research | Soil Toxicology Research Award | Soil Biodiversity Conservation Award | Excellence Award (Any Scientific field) | Best Research /Innovation Extension activity.

Topics of Award Subjects include, but are not limited to: Soil Morphology and Classification | Soil Physics | Soil Chemistry | Soil Biology and Microbiology | Soil Fertility and Nutrient Management | Soil Ecology | Soil Conservation Techniques | Soil Erosion and Sediment Control | Soil Remediation and Pollution | Soil Water Management | Soil and Environmental Health | Pedology and Soil Survey | Soil Organic Matter Dynamics | Soil and Climate Change | Soil-Plant Interactions | Soil Quality Assessment | Geostatistics in Soil Science | Soil Amendments and Fertilizers | Soil Biogeochemistry | Soil Physics and Hydrology | Urban Soils and Land Use | Soil Taxonomy | Soil Microbial Ecology | Soil and Agroecosystems | Soil Mapping and GIS | Soil Thermal Properties | Soil Compaction and Structure | Soil Salinity and Alkalinity | Soil Fertility Assessment Techniques | Soil Health Indicators | Soil-Based Carbon Sequestration | Soil Restoration and Rehabilitation | Tropical Soils and Agriculture
